

Partner in Education

Partner in Education

We are dedicated to the success of all students and seek partnerships with our community stakeholders to ensure our school continues to provide an inclusive environment where students become inquirers, skilled communicators, and courageous risk-takers who are biliterate and bicultural.

The Partner in Education program connects businesses to the community by providing tailored opportunities for engaging and supporting the nation's first public Arabic immersion school.

Engagement Opportunities Partnerships can take many forms, whether volunteering to read to children, donating surplus goods, hosting back-to-school drives, adopting a classroom, or sponsoring literacy, STEM, or arts programs. We invite you to review these opportunities and discuss how we can collaborate in a win-win partnership.

We seek community partnerships that enrich our learning environment for students and teachers. To support our partners, we offer the following marketing packages for businesses, as well as opportunities to contribute to specific educational goals (see attached). Examples partnerships include:

Health and Safety: Promotes a safe, secure, and healthy school environment.

The Arts and Arabic Culture: Exposes our students to Arabic art and culture, including music, percussion, choir, dabke, calligraphy, yoga, and other fine arts.

STEM: Enables student experiences and exposure to STEM.

Environment: Engages students in environmental awareness and care of the natural world.

Literacy Partner: Promotes English and Arabic literacy by providing Arabic language materials, books, and access to I-Read Arabic (a digital resource for children learning to read Arabic at home).

Teacher Training Scholarship Fund: Increases teacher skills and capabilities.

Who We Are A safe, family-friendly school where faculty members greet families and students by name. A school that nurtures students, fosters independence, and builds a sense of community. A trailblazing school, because we are the first Arabic language immersion public school in the nation. An innovative school, because we are changing the way students learn by using state of the art technology and teaching students math and science in Arabic. A school that inspires students to lead and show compassion, and truly become citizens of the world.
